## **IPG GLASS 2015**

**Tougher than tougher, yet very sensitive.**

**Not just a thinner glass protector. A better protector.**

IPG Tempered GLASS 2015 isn't simply thinner — it's better in every way. Tougher, yet dramatically thinner. With a smooth crystal clear surface that seamlessly meets the device display. It functions in perfect unison with your smart device, creating a new generation of protection that's better than better by any measure.

The higher-resolution displays on your phones will be the first thing you will see and you will forget IPG GLASS is there. What you experience is your phone's capability to its highest extent. IPG GLASS 2015 is the thinnest, most advanced protectors we've ever made.

Applying IPG GLASS 2015 is as simple as aligning it, pressing it, and watching it do the rest, just in seconds.

IPG Tempered Glass Retail: \$19.95
